

## MessageSolution Email & File Archive Enterprise Suite Wins Network Products Guide Reader Trust Award for Best Products & Services in Enterprise Archiving Category

MessageSolution Email & File Archive Enterprise Suite Selected a 2009 Best Products and Services Winner in Best Archive Category

**Milpitas, California – May 19, 2009** – MessageSolution announced today that Network Products Guide, the industry’s leading publication on information technologies and solutions has named MessageSolution Email & File Archive Enterprise Suite a winner of the 2009 Best Products and Services Award. This respected annual award honors products and services that represent the rapidly changing needs and interests of the end-users of technology worldwide. As part of the tech-industry’s leading global awards program, this year’s Best Products and Services were nominated from all over the world.

MessageSolution Email & File Archive Enterprise Suite is a centrally-managed archiving software solution that allows organizations to consolidate storage resources by storing e-mail, file, and Microsoft SharePoint Server archives on a single server. MessageSolution’s email archive, file archive, and SharePoint archive solutions can be deployed separately or together in a single management console for a completely centralized enterprise archiving solution. MessageSolution Email & File Archive Enterprise Suite with SharePoint Archiving delivers advanced electronic discovery, litigation and audit support features, and data restoration, along with stubbing for storage management.

“Increased end-user awareness and ongoing advances in technology are helping shape better products and services.” says Rake Narang, editor-in-chief, Network Products Guide. “MessageSolution Email & File Archive Enterprise Suite is bringing improvements in enterprise archiving for centralized data management.”

MessageSolution joins the ranks of other global technology leaders to receive Best Products & Services awards this year, including industry giants such as Cisco and Microsoft.

“These awards go to the best technology products every year and we are honored that MessageSolution Email & File Archive Enterprise Suite has gained the Network Products Guide Reader Trust,” said Jeff Liang, Chief Technology Officer at MessageSolution. “We are committed to meeting our customer’s needs by providing them with the best products and services.”

MessageSolution also recently released a Software as a Service archive solution. For details, please visit [http://www.messagesolution.com/Hosting\\_Solutions.htm](http://www.messagesolution.com/Hosting_Solutions.htm).

### **About Network Products Guide Awards**

Network Products Guide is a media sponsor of Interop Las Vegas and New York and Technosium Executive Forums engaging Chief Information Officers (CIOs) and Chief Information Security Officers (CISOs). As the industry’s leading technology research and advisory publication, it plays a vital role in keeping decision makers and end-users informed of the choices they can make in all areas of information technology. You will discover a wealth of information and tools in this guide including the best products and services, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals. The guide follows conscientious research methodologies developed and enhanced by industry experts. To learn more, visit [www.networkproductsguide.com](http://www.networkproductsguide.com)

### **About MessageSolution**

MessageSolution is a technology leader in email and file archiving for electronic discovery, compliance, and content storage management. MessageSolution’s products enable organizations to mitigate risk, reduce costs and storage requirements, optimize server performance, and comply with industry and federal regulations. Based in Silicon Valley, California, MessageSolution maintains operations in North America, Europe, and Mainland China, along with distribution channels in Europe, Africa, Australia, and Asia Pacific.

MessageSolution’s award-winning products, Enterprise Email Archive and Enterprise File Archive, are cross-server onsite archiving software applications. Both products serve organizations across all industries, including finance, health care, education, manufacturing, government agencies and non-profit organizations worldwide. MessageSolution’s products free IT administrators from daily maintenance and increase overall employee productivity. For more information, visit <http://www.messagesolution.com>.

MessageSolution is actively working with partners around the world to expand its worldwide business presence. Please visit our web site for more information on the Global Partner Network Program.

### **What Differentiates MessageSolution Products**

Customers continually emphasize MessageSolution products’ excellent overall performance, support of all major email servers, and ease of use. MessageSolution provides sub-second data retrieval, an intuitive interface, and ease of deployment and maintenance. MessageSolution’s intelligent back-end design significantly reduces installation requirements, backup time, and the need for technical support.

MessageSolution Enterprise Email Archive™ deftly manages petabytes of data daily, a powerful enterprise archiving solution. Electronic discovery and litigation support are empowered by the archive's built-in search engine, which searches through millions of emails within seconds across global locations and data centers. Users can access their archive through their email client, browser, or BlackBerry.

In the first quarter of 2009, MessageSolution became the first archiving vendor in the market to deliver a true 64-bit application that runs on a 64-bit OS machine.

MessageSolution delivers the industry's highest enterprise-level scalability and holds the industry record of archiving 11,000 users on one single MessageSolution archive server. Competitive vendors archive on average 3,000-5,000 users on a single archive server, much less than MessageSolution archiving system's scalability and flexibility. A high in-process compression rate combined with single instance message and attachment archiving slows archive storage growth.

Enterprise Email Archive™ further reduces organizations' storage costs by using only 30% of the original mail server storage space for live content archiving. MessageSolution's products support all Latin-based languages, as well as all character-based languages, such as Japanese and Chinese.
